FOREWORD

The Fifth Population and Housing Census was undertaken from 2nd to 18th March, 1998 throughout the country. For this purpose, the whole country was delimited into manageable census areas i.e., blocks, circles, charges and districts. Maps of all these census areas were prepared and supplied to the field staff to ensure full coverage. The field staff engaged from the Provincial Government Departments were imparted thorough training before the census operation.

To monitor field operation, control rooms at census district/tehsil levels were established. Close supervision of census work through verification process by the supervisors was also laid down. A massive public awareness programme was launched to build confidence and to educate the people about the census procedures and its importance through electronic and print media.

The provisional results of the 1998 Census have already been released in the form of Bulletin-1, by the Federal Minister for Finance, Economic Affairs & Statistics in a press conference held on 8th July, 1998. This bulletin presents provisional figures at provincial level with further breakdown to division, district and tehsil level. The population of each Municipal Corporation, Municipal Committee, Town Committee and Cantonment has also been given under the respective Tehsil.

According to these results the population of the Punjab Province is 72.585 million as against 47.292 million in 1981 showing an overall percentage increase of 53.5. It constitutes 55.6 percent of the total population of Pakistan, which has slightly decreased from 56.1 percent in 1981. The population of this province has increased at an average annual growth rate of 2.55 percent as compared to the national average of 2.61 percent. There is a modest decline in the growth rate of Punjab which has come down from 2.74 percent in 1981 to 2.55 percent in 1998.

The population of this province since 1951 is given as under :

<i>Year</i>	<i>Population</i>
1951	20,556,800
1961	25,499,876
1972	37,611,668
1981	47,292,441
1998	72,585,430

The Punjab is the most populous province with a population density (persons per sq. kilometer) of 353.5 which has increased from 230.3 persons per sq. kilometer in 1981.

The urban population in the province has increased from 27.6 percent in 1981 to 31.3 percent in 1998 at an average annual growth rate of 3.31 percent. Lahore is the biggest city of Punjab with the population of 5.063 million followed by Faisalabad (1.977 million) and Rawalpindi (1.406 million). The other two cities recording population of over one million are Multan (1.182 million) and Gujranwala (1.125 million). These five major cities account for 47.38 percent of total urban population and 14.82 percent of the total population of the Punjab.

The Census is a gigantic exercise of immense national importance. All concerned Ministries/Divisions and the Provincial Government played a vital role and fully cooperated in carrying out this important national task in a smooth manner. It has been a matter of great satisfaction that no serious complaints were recorded during the operation. Some minor complaints were however received which were resolved locally.

The Armed Forces supported the Population and Housing Census work on hundred percent basis. They maintained a close liaison with the civil set up at all levels by establishing census support centres at Province, Division, District, Tehsil and lower level. I extend my gratitude to all the Armed Forces and their officers/staff involved in this exercise.

The most arduous work of enumeration was done by the enumerators and their supervisors. I owe a deep debt of gratitude to all those who worked to make the Population and Housing Census 1998 a success.

Finally I thank the officers and staff members of the Population Census Organization for their relentless efforts to complete the census successfully.

The figures given in the following table are provisional and subject to change after processing of individual census returns in the coming months.
